

## Who funds EPI?

The Education Policy Institute is an independent, impartial and evidence-based research institute that aims to promote high quality education outcomes, regardless of social background. As a charity, the Education Policy Institute derives its income through several funding sources these include: foundations; organisation or individual members who have an interest or passion for education and young people's well-being; event partners; and commissioned independent, impartial and evidence-based research and analysis.

Without financial support our programme of research, our programme of events, including party conference events, would not be possible. Thank you to our partners and supporters who we hope will continue to support us in the years to come.
