Introduction

The Education Policy Institute [Annual Report 2019](#) assesses the state of education in England – including the progress made in closing the gap in attainment between disadvantaged pupils and their peers.

Known as the ‘disadvantage gap’, the measure is a leading indicator of how the government is performing on social mobility.

This document contains all geographical data breakdowns from the 2019 Annual Report, set out in the contents below. The disadvantage gap is examined at three education phases: early years (reception year), primary school (Key stage 2) and secondary school (Key stage 4).

Note: For a handful of local authorities, the legend and tables appear to disagree with the map shading due to the use of unrounded data in the maps, but rounded data in the legend and table. The map displays the correct quartile based on unrounded figures. Data for the City of London have been suppressed due to small numbers.

Note: For a handful of local authorities, the legend and tables appear to disagree with the map shading due to the use of unrounded data in the maps, but rounded data in the legend and table. The map displays the correct quartile based on unrounded figures. Data for the City of London have been suppressed due to small numbers.
